

MHM Flash Cure Units

The MHM Uni-Flash Quartz Flash Cure utilizes high output Quartz Infra-Red lamps. It offers the latest technology in intermediate curing.

Model
AFC4555

Model
AFC5070

Model
AFC4055

STANDARD FEATURES INCLUDE:

- Four Cure Sizes
- Precise Power Level and Process Time Adjustment
- Three Curing Zones
- Solid State Electronics Control
- Tools Free Fitting to Interface with MHM Automatic Carousels
- High Output Quartz Infra-Red Lamps for Fast and Even Curing
- Optional Mounting Stand with Levelling Feet

Manufactured as a self-contained unit to interface with all MHM automatic carousels. With simple electronic control, curing is banded into 3 zones, depending on position and size of print. The power level along with the process time can be varied to suit any application.
